-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "said protection plate" in line 17 and "the extended position" in lines 20 and 24. There is insufficient antecedent basis for this limitation in the claim.

It may be noted that applicant claim a "protective" plate and an "expanded" position in claim 1.

Claims 2, 4, 5 and 7 each recites the limitation "the extended position" in lines 2-4. There is insufficient antecedent basis for this limitation in the claim.

Claim 8 recites the limitation "the extended position" in line 5 and "said protection plate" in line 7. There is insufficient antecedent basis for this limitation in the claim.

Claim 9 recites the limitation "said protection plate" in line 4. There is insufficient antecedent basis for this limitation in the claim.

2. Claim 11 recites the limitation "the" or "said extension plate" in lines 10 and 11 and "the extending position" in line 10. There is insufficient antecedent basis for this limitation in the claim.

Furthermore there doesn't appear to be sufficient structure set forth in claim 11 for the expansion plate to be "resiliently detained in said extended position" as claimed

in claim 11. It is suggested that applicants consider using "means plus function" to effect such resilient detention.

Claim 12 recites the limitation "the protection plate" in line 3. There is insufficient antecedent basis for this limitation in the claim.

In claim 16 it isn't clear how the "opening" on line 2 relates to the opening on line 2 of claim 11. This appears to be a double inclusion.

3. Applicant's arguments, see page 14 of the amendment, filed 10/13/05, with respect to the objections to the drawings and disclosure have been fully considered and are persuasive. The objections of the drawings and disclosure have been withdrawn.

4. Claims 1-18 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

5. The following are suggested formats for either a Certificate of Mailing or Certificate of Transmission under 37 CFR 1.8(a). The certification may be included with all correspondence concerning this application or proceeding to establish a date of mailing or transmission under 37 CFR 1.8(a). Proper use of this procedure will result in such communication being considered as timely if the established date is within the required period for reply. The Certificate should be signed by the individual actually depositing or transmitting the correspondence or by an individual who, upon information and belief, expects the correspondence to be mailed or transmitted in the normal course of business by another no later than the date indicated.
